Job Description:

We are seeking a skilled and motivated Lab Technician/Assistant to support activities in the lab. The role involves the setup, operation, and maintenance of high-frequency RF and optical communication equipment, assisting with experiments, and ensuring a safe, efficient, and technically sound lab environment. The ideal candidate will bring a quality foundation in electronics or electrical engineering, hands-on experience with lab instruments, and a proactive approach to lab safety and equipment management.

Key Responsibilities:

- Handle and maintain high-frequency RF instruments, including signal generators, spectrum analysers, network analysers, and oscilloscopes.
- Work with optical fibre systems and photonic devices, including lasers, detectors and other T&M instruments.
- Assist in safe setup of experiments, cable routing, ESD compliance, and power management.

- Assist researchers and students in performing experiments and measurements related to optical and RF communication.
- Train lab users on proper equipment use, safety procedures, and maintenance practices.
- Calibrate and verify instruments periodically to maintain accuracy and performance.
- Maintain lab inventory, manage consumables and equipment logs, and coordinate with vendors for servicing and procurement.
- Support software-based data acquisition and basic automation using standard lab interfaces.

The last date for submission of online application is 23.07.2025.
